

6th world carpet congress

THE CARPET FACTORY OF THE FUTURE

unitex

Fedustria

Gent - BELGIUM - 8 & 9 June 2017

Carpets and textile floor coverings do not only decorate houses, offices, hotel lobbies and (public) transportation means, but they are also highly technological products, based on excellent research and development.

THE CARPET FACTORY OF THE FUTURE is created today by the sector's transition into a sustainable and hightech industry, with a cross-sectoral approach and open innovation policy.

The 6th edition of the WORLD CARPET CONGRESS will focus on different APPLICATION AREAS and INNOVATIVE OPPORTUNITIES for textile floor coverings, carpets and rugs.
